79 000 HUF + 0% VAT – From the 22nd October, and at the
Conference

The mission of the Hungarian Business Leaders Forum is promoting sustainable development of the country, which is impossible without a strong economy. We strongly believe with Financial Summit series HBLF created a forum and partnership for the government, business and civil society to promote positive macroeconomic trends and urge for structural reforms.

Our main topic: The future of Hungarian health care, its sustainability and the competitiveness of our health care system in Europe.

Other important topics include: Self-care, aging, and digitalisation and artificial intelligence in healthcare with the involvement of Hungarian professionals.

The language of the conference is Hungarian and English with simultaneous interpreting!

We are looking forward to seeing you at our event!

Sincerely yours:

Borbála Czákó
President
Hungarian Business Leaders Forum
