

BOARD- LEVEL PROGRAM

To support strong, balanced boards and responsible corporate governance.

OUR MISSION

Andrea Istenes Solti
HBLF President

“Being in a senior executive position or being a member of a board are highly responsible roles and have significant influence on the company's future. Future board members must be well prepared.

The HBLF Board-level Programme fills this gap. It helps prepare the next generation of board members and connects them with recognised experts from various sectors, as well as national and international top decision-makers. It also supports companies in meeting the requirements of the EU Directive on gender balance within their governing bodies.

Through the programme, participants will gain effective leadership skills, develop key professional competencies, and deepen their understanding of board roles and responsibilities - all through authentic and inspiring speakers.

The future belongs to everyone!

We look forward to welcoming you to our program!”

WHY IS THE BOARD-LEVEL PROGRAMME UNIQUE?

Participants will:

- gain **effective leadership skills** and competences needed to become a board member,
- develop a deep understanding of board roles and responsibilities.

Our premium programme will:

- address **individual needs**,
- provide a **supportive community** and shared learning opportunities with others in similar roles.

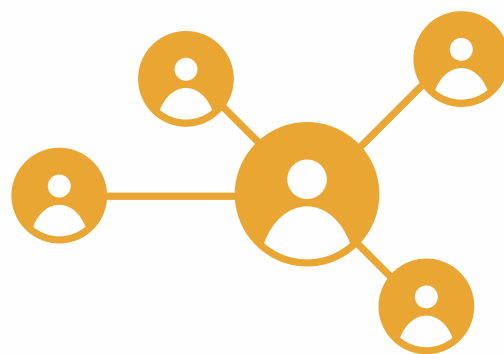

Our workshop leaders, speakers and mentors are among the country's **top professionals** and senior executives.

Participants will engage with **authentic and inspiring speakers**.
